DECT Handset

### Call management features

#### > Inbuilt least cost call routing

Select a low cost call carrier and slash your call costs with Aristel LCR. The system automatically determines the lowest cost carrier for the number dialled.

#### > Caller ID function

See who is calling before you answer the phone. DV Series handsets with display show the calling number and can also display names of selected contacts.

#### > Voice Mail

Enjoy the efficiency of up to 100 voice mail boxes complete with auto attendant call management.

#### > Call detail listing

The DV Series allows a complete listing of all incoming and outgoing call details, including dialled numbers and call duration.

#### > Individual call level facility

Call restrictions can be set to bar STD/ISD and even mobile calls on specified extensions if desired, and can be overridden with a personal account code.

#### > Cordless phone compatible

The DV Series offers full compatibility with DECT cordless phones to increase the efficiency of staff on the move. The DECT option does not reduce the total number of extensions available on the system.

### Your personal assistant

#### > Follow-me function

This feature allows your calls to be directed to the extension of your choice, wherever you may be on the premises.

#### > Personal time and date reminder

Simply enter important dates or appointment times on your handset for a convenient reminder as they arise.

#### > Convenient calculator

No more hunting for a calculator while you are on the phone. The DV Series puts a calculator at your fingertips on display models.

#### > System speed dials

Store a massive 1,000 phone numbers ready for instant speed dial. Or store 500 numbers and 500 names for name speed dial selection.

### Advanced, user-friendly design

#### > Adjustable, backlit LCD screen

The large LCD screen on display models adjusts to optimum viewing angle and brightness.

#### > Individual ring control

Handsets can be allocated an individual ring frequency and volume for easy recognition.

#### > Line status indicators

DV Series line indicators change colour from red to green for easy identification of call status.

### Certified quality

Aristel is a world leader in business communications, with systems sold in over 50 countries, and over 30,000 systems installed in Australia alone.

Every Aristel DV system is fully covered by a one-year all-component warranty, supported by the Aristel manufacturing and worldwide distribution network.
